Part I. Introduction

What India By Numbers is, what Task 3 asked for, and how to read this book

1. India By Numbers

India generates a great deal of public information about its people, places and public finances. Ministries, departments, commissions, surveys and local governments each collect data for their own administrative, operational or policy purposes. The result is fragmented: information about the same people, places and development issues sits in separate portals, databases and publications, which makes it hard to find, compare and connect.

India By Numbers (IBN) aims to close that gap. It starts by building a structured, growing repository of India's public information, so that existing datasets, reports and surveys are easier to discover and understand. Later it will connect information across sources, institutions, subjects and places: for example, relating Census population characteristics, panchayat records, school and health surveys and public spending, to see how population, public resources and services relate to each other.

Three principles shape the work:

- **Start from what exists.** Understand and build on the information already published before committing to complex technology or analysis.
- **Be transparent about evidence.** Distinguish what a source reports directly, what is derived by combining sources, what rests on assumptions, and what is unavailable.
- **Show the gaps.** Make visible where information is missing, uneven or out of date, and why that matters.

The first phase covers two domains, **Public Finance** and **Demographics**, starting with Bihar.

2. The three tasks

Task	What it asked for	What it produced
1. Data source discovery	Find every relevant dataset for public finance and demographics and record its name, publisher, link, purpose, subjects and indicators, access method and format	Two catalogues: 66 India-wide sources and 41 Bihar sources, each with geographic level, update frequency, latest edition and known gaps
2. Data availability assessment	Work out how complete each dataset really is: geographic detail, years covered, frequency, coverage, missing places and periods, and access restrictions	An availability assessment of every source on common categories, and a Gap Summary
3. Data collection	Download the datasets, keeping the original files, recording download dates and source references, never editing originals by hand, and using repeatable scripts	The ibn-collector toolkit and the Bihar collection described in this book

The tasks build on each other. Task 1's catalogue became the collector's list of sources, under the same IDs (BR-PF-01, BR-DM-02 and so on). Task 2's availability notes predicted much of what went wrong in collection: sources that are view-only, need a login, or are published only as PDFs.

Headline findings carried forward from Task 2

- India-wide, most data stops at state level; village-level data is either from Census 2011 or only viewable on screen; key household surveys have long breaks; district GDP is not published nationally; most fiscal data is PDF only.
- For Bihar, three population figures disagree: Census 2011 (10.41 crore), the 2023 caste survey (13.07 crore, state level only) and official projections based on 2011.
- District spending is locked inside the treasury system, which needs a login; panchayat finances can only be viewed on screen; there are no district-level health rates after NFHS-5 (2019-21).

3. How to read this book

Part II explains what the collector does and the records it keeps. Part III describes every dataset that was collected and the status of every catalogue source. Part IV analyses the data: Bihar's public

finances, its population and demography, its villages, and how far the sources agree with each other. Part V covers data quality, what remains to be collected, and next steps. The appendices list every file.

Figures in this book are read from the collector's own files when the book is built. Each analysis table names the original document it came from; the underlying CSV files are in `data/analysis/insights/` and record the exact page.

Numbers at a glance

Measure	Value
Bihar catalogue sources covered	41 of 41 in the collector's list; 12 with data collected
Data files collected and verified	721 (1.23 GB)
PDF documents	117 with 14,905 pages
Excel workbooks	566 with 1,144 sheets
District Census Handbook archives	38 with 2,344 district tables
Tables found in PDFs	14,451
Scanned pages read by OCR	2,165 of 2,446
Collection runs logged	10
Bad downloads caught and set aside	376

Part II. What the system does

The ibn-collector toolkit: its stages, its records and its tests

4. The toolkit at a glance

The collector is a set of small Python scripts, each doing one stage. It needs only Python 3.9 or later for downloading; extraction uses pdfplumber, pandas and openpyxl, and OCR uses Tesseract. Every stage is safe to re-run: work already done is skipped, and nothing already saved is changed.

Stage	Script	Reads	Writes
List sources	manifest.csv, census_manifest.py	Task 1 catalogue IDs; census API	config/manifest*.csv
Download	collect.py	manifests	data/raw/, provenance.jsonl
Hand downloads	register_manual.py	files saved by a person	data/raw/, provenance.jsonl
Set aside	flag.py	data/raw/	invalid records in provenance.jsonl
Extract	extract.py	data/raw/	data/processed/, extractions.jsonl
OCR	ocr.py	data/raw/, empty pages	page_NNN.ocr.txt, ocr.jsonl
Verify	verify.py	data/raw/, provenance.jsonl	data/inventory.csv
Describe	analyse.py, insights.py	logs, data/processed/	data/analysis/
Publish	book_charts.py, make_book.py	data/analysis/	docs/

5. Each script in detail

`collect.py`: Download sources and record where they came from

Reads a manifest (config/manifest.csv by default) and, for each row, downloads the file or the page. In **file** mode it downloads one URL. In **page** mode it saves a snapshot of the page, finds the links on it that match the row's link pattern, and downloads those. **Manual** rows are logged as skipped.

- Streams each download to a temporary file, then checks it before keeping it: the size must match what the server announced (so a cut-off download is never kept), and an HTML page served for a .pdf or .xlsx link, or a bot-check page, is refused and logged as blocked.
- Computes a sha256 fingerprint. If a file with the same fingerprint was already saved for that source, it is logged as unchanged and not saved again. Otherwise it is moved into data/raw/<source>/<date>/ and made read-only. A file is never overwritten: a new version gets a new name beside the old one.
- Appends one line per attempt to data/provenance.jsonl (see chapter 6).
- Keeps cookies within a run and loads config/extra-intermediates.pem on top of the system certificate store, for portals that omit part of their certificate chain. Certificate verification is never turned off.
- Cleans up links from messy pages: encodes spaces, and splits two URLs pasted into one link.

```
python scripts/collect.py [--only ID ...] [--priority N] [--manifest FILE] [--resume] [--dry-run]
```

`census_manifest.py`: List Bihar's census files through the census catalogue's API

censusindia.gov.in loads its pages with JavaScript, so ordinary scraping finds nothing. Behind it is a catalogue (NADA) with a public JSON API. This script asks it for Census 2011 tables naming Bihar (BR-DM-02), the 2011 District Census Handbooks for Bihar (BR-DM-03) and the SRS Statistical Reports (BR-DM-05).

- For each catalogue entry, reads its list of downloads and checks each one's file name and size.
- Keeps machine-readable files (Excel, CSV, zip) by default; --with-pdf keeps the PDF versions too.
- Drops repeats: the 82 MB state village file is linked from every District Census Handbook page but is listed once.
- Writes one file row per download to config/manifest_census.csv (or manifest_srs.csv), which collect.py then runs.

```
python scripts/census_manifest.py [--groups tables,handbooks,srs] [--out FILE] [--with-pdf]
```

`register_manual.py`: Add files downloaded by hand

For sources behind a login, form or CAPTCHA, a person downloads the file in a browser and registers it, so it gets the same treatment as an automatic download.

- Copies the file byte for byte (the person's copy is untouched), checks the copy, makes it read-only and logs it with the source ID, URL, date obtained, who obtained it and a note.
- Accepts one file or a whole folder (--dir). Refuses a file that is really a CAPTCHA or error page.
- Validates the date and the source ID, so a typo cannot create files outside data/raw.

```
python scripts/register_manual.py --source-id ID --file F | --dir D --url URL --obtained-on YYYY-MM-DD
```

`flag.py`: Set aside bad originals without deleting them

Some downloads turn out not to be what they claim, for example a bot-check page saved under a .xlsx name.

- --auto finds saved files whose content is a bot-check page or HTML served for a file link; --path flags named files with a reason.
- Appends an invalid record to the provenance log. Nothing is deleted or moved: the record of what the site served stays complete.
- Flagged files are skipped by extraction, marked valid = no in inventory.csv, and ignored for duplicate checks.

```
python scripts/flag.py --auto [--apply] | --path P ... --reason TEXT --apply
```

`extract.py`: Make machine-readable copies

Turns each valid original into text and CSV in data/processed/<source>/<first 12 characters of its sha256>/, with an extraction.json that points back to the original, its URL and download time.

- PDF: the text of every page (page_NNN.txt) and every ruled table as CSV. Pages are released after reading so 1,000-page reports fit in memory.
- Excel: one CSV per sheet, every cell as text, no cleaning. Old-format .xls files with broken named ranges are still read.
- Zip: spreadsheets and CSVs inside are read in memory and written as CSV; nothing is unpacked into data/raw, and member names cannot write outside the output folder.
- CSV re-encoded to UTF-8; HTML tables to CSV.
- Re-checks each original's fingerprint first and extracts each original once; --retry-partial re-runs zips with unread members.

```
python scripts/extract.py [--only ID ...] [--retry-partial] [--force]
```

`ocr.py`: Read scanned pages

Scanned pages have no text layer, so extraction gives empty text. This script finds those pages and reads them with Tesseract in English and Hindi.

- Renders only the empty pages (200 dpi) and writes page_NNN.ocr.txt beside page_NNN.txt.
- Runs several pages at once (--workers) and resumes page by page after an interruption.
- Logs each file in data/ocr.jsonl. OCR text can contain misreadings (chapter 18).

```
python scripts/ocr.py [--only ID ...] [--workers N]
```

`verify.py`: Prove the originals are unchanged

Re-computes the fingerprint of every original in the provenance log and compares it with the recorded one.

- Reports any original that is missing, modified, or present on disk but never logged, and any leftover partial download. Exit code 1 if anything is wrong.
- Writes data/inventory.csv: one row per original with its source, URL, download date, size, fingerprint and validity.

- Files kept out of git for size (config/not_in_git.txt) are reported as NOT IN GIT, not missing.

```
python scripts/verify.py
```

`analyse.py`: Describe what was collected

Builds data/analysis/files.csv, summary.json and FILES.md: for every valid file, the period it covers (read from its name), pages or sheets, tables found, pages without text and how many OCR read, and how often Bihar is mentioned.

```
python scripts/analyse.py
```

`insights.py`: Extract analysis-ready figures

Reads specific tables from the collected files into data/analysis/insights/: GST by year, state finances, SRS rates, population, Finance Commission shares, the district census profile and village amenities. Each value carries the file and page it came from, and the script checks the figures where it can (chapter 16).

```
python scripts/insights.py
```

`book_charts.py, make_book.py, make_handbook.py`: Produce this book and the short handbook

Draw the charts from the insights files and assemble the PDFs.

```
python scripts/book_charts.py && python scripts/make_book.py
```

6. The records it keeps

Every download attempt is one line of JSON in data/provenance.jsonl, appended and never rewritten. This is the record behind the Task 3 requirements: it says where each file came from, when, and what it was. Here is the real record for the PRS Bihar Budget Analysis 2026-27:

```
"attempts": 1
"bytes": 732418
"final_url":
"https://prsindia.org/files/budget/budget_state/bihar/2026/Budget_Analysis_2026-27-Bihar.pdf"
"headers": {"content-length": "732418", "content-type": "application/pdf", "etag":
"\"699596ad-b2d02\"", "last-modified": "Wed, 18 Feb 2026 10:38:37 GMT"}
"http_status": 200
"link_text": "Open Pdf"
"parent_url": "https://prsindia.org/budgets/states/bihar-budget-analysis-2026-27"
"retrieved_at_ist": "2026-11-13T12:29:12+05:30"
"retrieved_at_utc": "2026-11-13T06:59:12+00:00"
"role": "linked_file"
"run_id": "2026-11-13T064854Z"
"sha256": "dcbb3b457a838cd606ef1644e3398fcab8af855d745415222f90acd131efc1c4"
"source_id": "BR-PF-16"
"status": "saved"
"stored_path": "data/raw/BR-PF-16/2026-11-13/Budget_Analysis_2026-27-Bihar.pdf"
"tool": "ibn-collector/0.1"
"url": "https://prsindia.org/files/budget/budget_state/bihar/2026/Budget_Analysis_2026-27-Bihar.pdf"
```

Field	Meaning
source_id	Task 1 catalogue ID (a suffix such as 05c marks a part of a catalogue source)
url, final_url	Address requested, and the address after any redirects
parent_url, link_text	The page the file was linked from, and the link's text
retrieved_at_utc / _ist	When it was downloaded, in UTC and Indian time
headers	What the server said: type, size, Last-Modified, ETag
sha256, bytes	Fingerprint and size of the saved file
status	saved, unchanged, error, blocked, skipped_manual, manual, or invalid (flagged)
stored_path	Where the original is kept, under data/raw/

Field	Meaning
run_id	Which collection run made the attempt

Folder layout

```
config/manifest.csv       what to collect (41 catalogue sources)
config/manifest_census.csv, manifest_srs.csv   census and SRS files (built by script)
config/extra-intermediates.pem   public certificates some portals omit
config/not_in_git.txt    originals over GitHub's 100 MB limit
data/raw/<ID>/<date>/    original files, read-only
data/processed/<ID>/<sha12>/   extracted text and CSV
data/provenance.jsonl   download log
data/extractions.jsonl, ocr.jsonl   extraction and OCR logs
data/inventory.csv      one row per original (verify.py)
data/analysis/        files.csv, summary.json, FILES.md, insights/
docs/               this book, the handbook and the charts
```

How each Task 3 requirement is met

Requirement	How it is met
Preserve original files	Saved byte for byte, read-only, never overwritten; bad files flagged, never deleted
Record download dates	Every attempt logged with UTC and IST time and the server's own dates
Maintain source references	Catalogue ID, URLs, linking page, link text, size and fingerprint in every record
Avoid manually modifying originals	All derived work goes to data/processed; verify.py proves every original is unchanged
Repeatable scripts	One command per stage; re-runs skip finished work

7. How it is tested

tests/run_test.sh runs the whole pipeline offline against a fake government portal on the local machine and checks the results. When this book was built it ran 52 checks: 52 passed and 0 failed.

#	Check
1	dry run writes nothing (no log, no raw folder)
2	page snapshot + 3 linked files + direct file saved (5)
3	off-pattern link not fetched
4	404 logged as error
5	manual source logged as skipped
6	originals are read-only
7	download time recorded in UTC and IST
8	CAPTCHA page served for an .xlsx link logged as blocked
9	CAPTCHA page not kept in data/raw
10	two URLs in one href become two links
11	spaces in a relative href are encoded
12	existing %XX escapes and query strings kept
13	no new copies on unchanged re-run
14	unchanged files logged
15	revised PDF saved as new version, old kept
16	--resume skips file rows already saved
17	manual file registered once
18	rejects path-like --obtained-on (../x)
19	rejects malformed --obtained-on (13-11-2026)
20	rejects impossible date (2026-02-30)
21	rejects path-like --source-id
22	nothing written outside data/raw/<id>/<date>

#	Check
23	collect rejects path-like source_id in manifest
24	several file rows for one source are allowed
25	repeated page rows for one source are refused
26	the same source and URL twice is refused
27	raw folders named with IST date
28	dropped download logged as error
29	no .part- temp files left behind
30	PDF table extracted to CSV
31	Excel sheets extracted
32	cp1252 CSV re-encoded to UTF-8
33	HTML table extracted
34	sidecar links back to raw sha256 and URL
35	extraction not repeated (exactly 8 ok, 1 not_extracted)
36	flag --auto is a dry run by default
37	flag --auto finds the bot-check original (and only it)
38	flagged file kept, unchanged, in data/raw
39	extract skips flagged files
40	flag --path needs --reason
41	flag --path records reason
42	folder registration exits non-zero when a file is refused
43	real files registered, CAPTCHA page refused
44	inventory marks flagged files invalid with reason
45	verify passes on untouched originals
46	inventory.csv written
47	spreadsheet inside a zip extracted to CSV
48	zip member names cannot escape the output folder
49	non-spreadsheet zip members are listed
50	verify detects modified original
51	extract refuses changed raw file
52	verify reports leftover partial files

Part III. What data we have

Coverage of the Bihar catalogue and a guide to every dataset collected

8. Status of every Bihar catalogue source

All 41 sources in the Bihar catalogue are in the collector's list: 11 collected, 1 partly collected, 11 blocked, 14 manual, 4 nothing to collect. **Blocked** means the website itself failed (expired certificate, server error, bot check, or refusing connections from outside India). **Manual** means a person must download it (login, form, CAPTCHA or on-screen-only reports).

ID	Dataset	Status	Files	MB	Notes
BR-PF-01	Bihar State Budget documents	Blocked			Expired security certificate on budget.bihar.gov.in
BR-PF-02	Bihar Green Budget 2024-25	Collected	1	12.4	Green Budget 2024-25; outcome, gender and child budgets have no links on the portal
BR-PF-03	Bihar FRBM Act disclosures	Blocked			Expired security certificate (same site as BR-PF-01)
BR-PF-04	Bihar Economic Survey	Collected	2	110.5	Economic Survey 2024-25, English and Hindi
BR-PF-05	Bihar Finance Accounts Vol I & II - AG	Collected	13	88.1	Finance and Appropriation Accounts FY 2021-22 to 2024-25; Accounts at a Glance 2024-25
BR-PF-06	Bihar Monthly Civil Accounts	Partly collected	69	46.0	Monthly Key Indicators Apr 2021 – Jun 2026; Monthly Civil Accounts page returned 504
BR-PF-07	CAG State Finances Audit Report - Report No. 2 of 2026	Blocked			saiindia.gov.in resets connections from outside India
BR-PF-08	CAG audit reports on Bihar, incl. local bodies	Blocked			CAG audit-report page returned a server error (HTTP 500)
BR-PF-09	Bihar State Finance Commission reports	Collected	3	99.0	5th SFC Vol I and 6th SFC Parts 1–3
BR-PF-10	Bihar CFMS	Manual			Login required; register any public report with register_manual.py
BR-PF-11	Commercial Taxes Department, Bihar - revenue data	Nothing to collect			The department publishes no revenue data files
BR-PF-12	GST statistics	Collected	53	5.9	All states, FY 2017-18 to FY 2026-27
BR-PF-13	RBI State Finances: A Study of Budgets	Blocked			RBI shows scripts a bot check; download in a browser
BR-PF-14	RBI Handbook of Statistics on Indian States	Blocked			RBI shows scripts a bot check; download in a browser
BR-PF-15	16th Finance Commission report	Collected	20	249.1	15th and 16th Finance Commission reports, Bihar evaluation, 13 datasets
BR-PF-16	PRS Bihar Budget Analysis 2026-27	Collected	2	1.4	2026-27 analysis and 16th FC summary
BR-PF-17	Open Budgets India - Bihar budget datasets	Manual			Site returned HTTP 520 (behind a bot-protection layer) in Nov 2026; download Bihar datasets by hand
BR-PF-18	CityFinance - Bihar urban local bodies	Manual			JavaScript app with no file links; the 16th FC ULB data dump (BR-PF-15) contains CityFinance data for all states
BR-PF-19	eGramSwaraj - Bihar panchayat reports	Manual			On-screen reports; export manually or write a dedicated scraper later
BR-PF-20	Panchayati Raj Department, Bihar	Nothing to collect			Publishes orders and notices, not datasets
BR-PF-21	Urban Development and Housing Department, Bihar	Nothing to collect			Publishes orders and notices, not datasets
BR-PF-22	Bihar District Domestic Product 2011-12	Blocked			Statistics directorate site unreliable; district GDP is also in the Economic Survey
BR-DM-01	Bihar Caste-Based Survey 2022-23 report	Manual			No stable official URL; register the tabled report PDF manually with its origin
BR-DM-02	Census 2011 tables - Bihar	Collected	500	316.7	500 tables naming Bihar

ID	Dataset	Status	Files	MB	Notes
BR-DM-03	District Census Handbooks 2011 - Bihar	Collected	40	116.1	All 38 districts: 2,344 district tables plus state village and town files
BR-DM-04	Census of India 2027 - Bihar	Nothing to collect			Census 2027 results not yet published
BR-DM-05	Sample Registration System - Statistical Reports	Collected	16	169.9	Statistical Reports 2011–2024
BR-DM-06	Bihar Annual Vital Statistics Reports	Blocked			Statistics directorate site unreliable (502 errors, resets, wrong certificate)
BR-DM-07	Monthly district CRS returns	Blocked			Statistics directorate site unreliable
BR-DM-08	Bihar Statistical Handbook 2020	Blocked			Statistics directorate site unreliable
BR-DM-09	NFHS - Bihar fact sheets	Blocked			Expired security certificate on rchiips.org
BR-DM-10	Periodic Labour Force Survey - Bihar estimates	Manual			mospi.gov.in is a JavaScript app with no file links; download the PLFS annual report by hand.
BR-DM-11	Household Consumption Expenditure Survey - Bihar estimates	Manual			mospi.gov.in is a JavaScript app; download the HCES report by hand.
BR-DM-12	Mission Antyodaya - Bihar	Manual			Download form asks for name and purpose
BR-DM-13	Socio Economic and Caste Census 2011 - Bihar	Manual			View-only portal; returned 502 in Nov 2026
BR-DM-14	Bihar electoral roll statistics	Manual			Use published statistics only; not name-level rolls
BR-DM-15	HMIS - Bihar districts and facilities	Manual			Reports are generated on screen; connection reset in Nov 2026.
BR-DM-16	Population Projections 2011-2036	Collected	1	11.5	Technical Group projections 2011–2036
BR-XC-01	Bihar DataLab	Manual			JavaScript app; login and API described as planned (Nov 2026)
BR-XC-02	Bihar e-Statistics portal	Manual			Redirects to a login page (Nov 2026)
BR-XC-03	Local Government Directory - Bihar units	Manual			Download form with captcha; data.gov.in API is an alternative

9. The datasets in detail

For each dataset: who publishes it, how often, at what geographic level, what it is for, how the files are laid out, and anything to watch for. Figures in grey are from the collection itself.

Monthly Key Indicators (Accountant General, Bihar) BR-PF-05c

The state's monthly receipts, spending, borrowing and deficits against the budget estimate, about 18 pages each. Every month from April 2021 to June 2026 is present, plus preliminary and supplementary March editions. Catalogue ID BR-PF-06.

Publisher	Accountant General (A&E), Bihar
Frequency	Monthly
Geography	State
Purpose	Track the state's fiscal position month by month: receipts, spending and deficits against the budget.
Files	PDF, about 18 pages: a one-page summary of receipts, expenditure by type and sector, and deficits, each with the budget estimate, actual to date, % of budget and the same point last year; then monthly progressions.
Watch for	Unaudited and provisional. Each month is cumulative from April. March has preliminary and supplementary editions; the supplementary one is final for the year.

69 files · 46.0 MB · 1,233 PDF pages, 1,473 tables · 0 of 12 scanned pages read by OCR · period 2021-04 to 2026-06

Finance Accounts, Volumes I and II BR-PF-05

The audited annual accounts of the Government of Bihar for FY 2021-22 to FY 2024-25. Volume II runs to 474–535 pages of detailed statements a year.

Publisher	Accountant General (A&E), Bihar
Frequency	Annual
Geography	State; department; major head
Purpose	The audited annual accounts of the government: what was received and spent, under every head.
Files	Volume I: summary statements. Volume II: detailed statements of revenue, expenditure, loans, guarantees and investments.
Watch for	Published about nine months after the year ends.

8 files · 37.2 MB · 2,336 PDF pages, 2,236 tables · 8 of 55 scanned pages read by OCR · period FY 2021-22 to FY 2024-25

Appropriation Accounts BR-PF-05b

Spending grant by grant against what the legislature approved, FY 2021-22 to FY 2024-25.

Publisher	Accountant General (A&E), Bihar
Frequency	Annual
Geography	State; grant
Purpose	Spending under each grant against what the legislature authorised.
Files	Grant-by-grant statements with excess and saving explanations.

4 files · 33.7 MB · 1,829 PDF pages, 2,261 tables · 6 of 28 scanned pages read by OCR · period FY 2021-22 to FY 2024-25

Accounts at a Glance 2024-25 BR-PF-05a

A 53-page summary of the state's finances for the year.

Publisher	Accountant General (A&E), Bihar
Frequency	Annual
Geography	State
Purpose	A short readable summary of the accounts.
Files	Charts and tables on receipts, spending, debt and deficits, with a five-year comparison.

1 files · 17.3 MB · 53 PDF pages, 174 tables · 0 of 2 scanned pages read by OCR · period FY 2024-25

Bihar Economic Survey 2024-25 BR-PF-04

The Finance Department's annual survey of the economy, in English and Hindi, including district GDP. Both editions are scanned images, so their text comes from OCR.

Publisher	Finance Department, Government of Bihar
Frequency	Annual
Geography	State; district
Purpose	The government's review of the economy: growth, district GDP, sectors, public finance and services.
Files	Chapters with tables and charts; English and Hindi editions.
Watch for	Both editions are image-only PDFs, so their text comes from OCR. Earlier years are linked from the Finance Department site on Google Drive and were not collected.

2 files · 110.5 MB · 1,272 PDF pages, 0 tables · 1,256 of 1,272 scanned pages read by OCR · period FY 2024-25

Green Budget 2024-25 BR-PF-02

Spending tagged to environment and climate objectives.

Publisher	Finance Department, Government of Bihar
Frequency	Annual
Geography	State; department; scheme
Purpose	Spending tagged to environmental objectives.
Files	Scheme-level tables.
Watch for	The portal lists outcome, gender and child budgets too, but without download links.

1 files · 12.4 MB · 98 PDF pages, 79 tables · 0 of 1 scanned pages read by OCR · period FY 2024-25

State Finance Commission reports BR-PF-09

The 5th SFC report (Volume I) and the 6th SFC report (Parts 1–3) on sharing state resources with panchayats and municipalities. Part 3 is mostly scanned.

Publisher	State Finance Commission, Bihar
Frequency	Every five years
Geography	State; panchayat; municipality
Purpose	Recommendations on sharing state revenue with local governments.
Files	Report volumes with fiscal data on local bodies.
Watch for	6th SFC Part 3 is mostly scanned.

3 files · 99.0 MB · 815 PDF pages, 523 tables · 265 of 282 scanned pages read by OCR

16th Finance Commission (2026-31) BR-PF-15

The main report and annexures, the commission's evaluation of Bihar's state finances, and 13 all-state datasets: devolution, key fiscal indicators, state finance accounts, salaries, subsidies, state enterprises and urban local bodies.

Publisher	Sixteenth Finance Commission
Frequency	Once (award period 2026-31)
Geography	Centre; states
Purpose	How central taxes are shared among states, and grants to states and local bodies.
Files	Main report, annexures, an evaluation of Bihar's finances, and 13 all-state Excel datasets.

16 files · 81.8 MB · 814 PDF pages, 570 tables · 50 sheets · 0 of 22 scanned pages read by OCR

15th Finance Commission (2020-21 and 2021-26) BR-PF-15a

Volumes I, II and IV (The States) and the 2020-21 report. Volume IV is 116 MB, over GitHub's file limit, so it is kept out of git and listed in config/not_in_git.txt.

Publisher	Fifteenth Finance Commission
Frequency	Once (award periods 2020-21 and 2021-26)
Geography	Centre; states
Purpose	The previous award, including state-by-state chapters.
Files	Report volumes I, II and IV.
Watch for	Volume IV is 116 MB, over GitHub's file limit, so it is kept out of git.

4 files · 167.3 MB · 1,362 PDF pages, 1,673 tables · 22 of 53 scanned pages read by OCR

GST statistics (all states) BR-PF-12

State-wise GST collections, GSTR-1 and GSTR-3B returns and IGST settlement for FY 2017-18 to FY 2026-27, e-way bill data from FY 2018-19, registrations and summary reports.

Publisher	GST Network / GST Council
Frequency	Monthly, published by year
Geography	State
Purpose	Goods and services tax collected in each state.
Files	Excel workbooks by year: state-wise monthly collections, returns filed, IGST settlement, e-way bills.
Watch for	All states in every file; Bihar is one row.

53 files · 5.9 MB · 71 PDF pages, 153 tables · 95 sheets · period FY 2017-18 to FY 2026-27

PRS Bihar Budget Analysis 2026-27 BR-PF-16

PRS Legislative Research's analysis of the 2026-27 budget and its summary of the 16th Finance Commission report.

Publisher	PRS Legislative Research
Frequency	Annual
Geography	State
Purpose	An independent analysis of the state budget.
Files	A short PDF with key figures and charts.

2 files · 1.4 MB · 13 PDF pages, 14 tables · period FY 2026-27

Census 2011 tables for Bihar BR-DM-02

500 tables whose title names Bihar, listed through the census catalogue's public API. See Appendix B for the series.

Publisher	Office of the Registrar General and Census Commissioner
Frequency	Every ten years (2011)
Geography	State; district; block; town; village
Purpose	The full count of Bihar's population and its characteristics.
Files	Excel tables by series: Primary Census Abstract, houselisting, social and cultural, economic, migration, fertility (Appendix B).
Watch for	Census 2011 is the latest available; Census 2027 results are not yet out.

500 files · 316.7 MB · 993 sheets

District Census Handbooks 2011 BR-DM-03

For all 38 districts, about 60 district tables each (2,344 in all), plus state-wide village and town files. The village file lists every village in Bihar.

Publisher	Office of the Registrar General and Census Commissioner
Frequency	Every ten years (2011)
Geography	District; block; village; town
Purpose	Each district's tables and the amenities in every village and town.
Files	38 district archives of about 60 tables, plus the state Village Directory (44,873 villages, 396 attributes) and Town Directory.

40 files · 116.1 MB · 6 sheets · period 2011

Sample Registration System — Statistical Reports BR-DM-05

Annual reports for 2011 to 2024 with state birth, death, fertility and mortality rates, plus two corrigenda.

Publisher	Office of the Registrar General (SRS)
Frequency	Annual
Geography	State; rural and urban
Purpose	Birth, death, fertility and infant mortality rates from a continuous sample survey.
Files	Report PDFs with statements and annual-estimate tables.
Watch for	State-level only; reports for 2015-2019 are partly scanned.

16 files · 169.9 MB · 4,560 PDF pages, 3,548 tables · 602 of 705 scanned pages read by OCR · period 2011 to 2024

Population Projections 2011–2036 BR-DM-16

The Technical Group's projections, with state tables.

Publisher	Technical Group on Population Projections (MoHFW)
Frequency	Once (2019)
Geography	State
Purpose	Projected population 2011-2036 by age and sex.
Files	Report PDF with state tables.

1 files · 11.5 MB · 268 PDF pages, 1,599 tables · 0 of 6 scanned pages read by OCR · period 2019

Vital Statistics of India, CRS 2023 DM-11

National civil registration report with state tables (from the India-wide catalogue).

Publisher	Office of the Registrar General (CRS)
Frequency	Annual
Geography	State
Purpose	Registered births and deaths under the Civil Registration System.
Files	Report PDF with state tables.

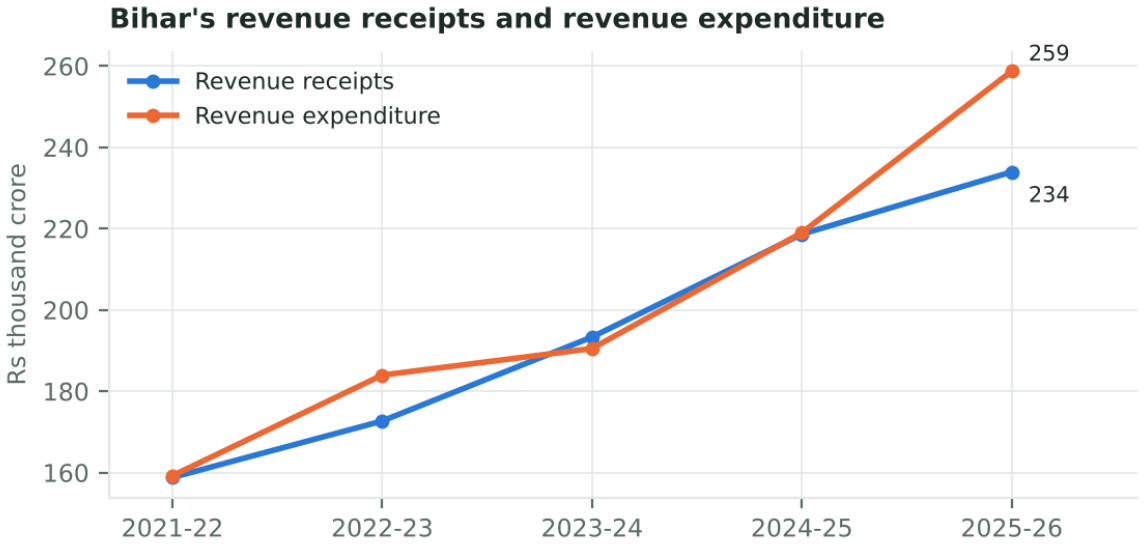

1 files · 4.5 MB · 181 PDF pages, 148 tables · 6 of 8 scanned pages read by OCR · period 2023

Part IV. Analysis

What the collected data says about Bihar, and how far the sources agree

10. Bihar's public finances

The year-end Monthly Key Indicators give a consistent five-year picture, 2021-22 to 2025-26. Revenue receipts grew from Rs 158,797 crore to Rs 233,962 crore, about 10.2% a year. Revenue expenditure grew faster in the last year, to Rs 258,748 crore, so a near balance on the revenue account in 2024-25 became a revenue deficit of Rs 24,785 crore in 2025-26.

Source: Monthly Key Indicators, year-end (March supplementary) editions, 2021-22 to 2025-26; unaudited. data/analysis/insights/state_finances.csv.

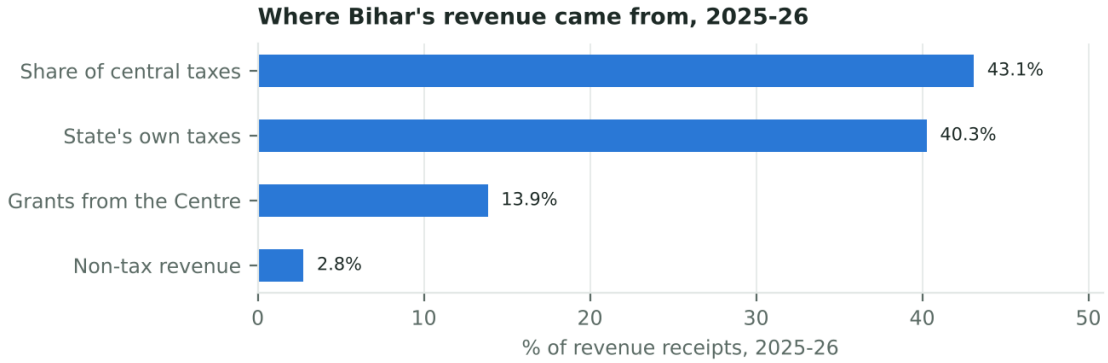

Rs crore	2021-22	2022-23	2023-24	2024-25	2025-26
Revenue receipts	158,797	172,688	193,347	218,658	233,962
Tax revenue	126,207	139,528	161,965	183,013	195,092
GST	44,706	50,232	62,155	66,806	70,398
Share of union taxes	65,910	68,521	79,127	91,632	100,871
Grants-in-aid	28,606	29,026	26,125	29,863	32,417
Non-tax revenue	3,984	4,135	5,257	5,781	6,454
Revenue expenditure	159,220	183,976	190,514	219,015	258,748
Salaries and wages	24,983	26,290	30,047	40,456	57,632
Pensions	20,258	23,108	24,291	26,140	29,134
Interest payments	13,822	15,184	17,584	19,678	22,188
Subsidies	10,256	14,547	16,110	18,245	21,846
Capital expenditure	23,678	31,520	36,453	38,527	36,590
Total expenditure	182,898	215,496	226,967	257,542	295,337
Revenue surplus (+) / deficit (-)	-422	-11,288	2,833	-357	-24,785
Fiscal deficit (-)	-25,551	-44,823	-35,660	-41,222	-63,803
Primary deficit (-)	-11,729	-29,640	-18,076	-21,544	-41,615

Deficits are shown as reported: negative is a deficit. Tax revenue includes the state's share of central taxes.

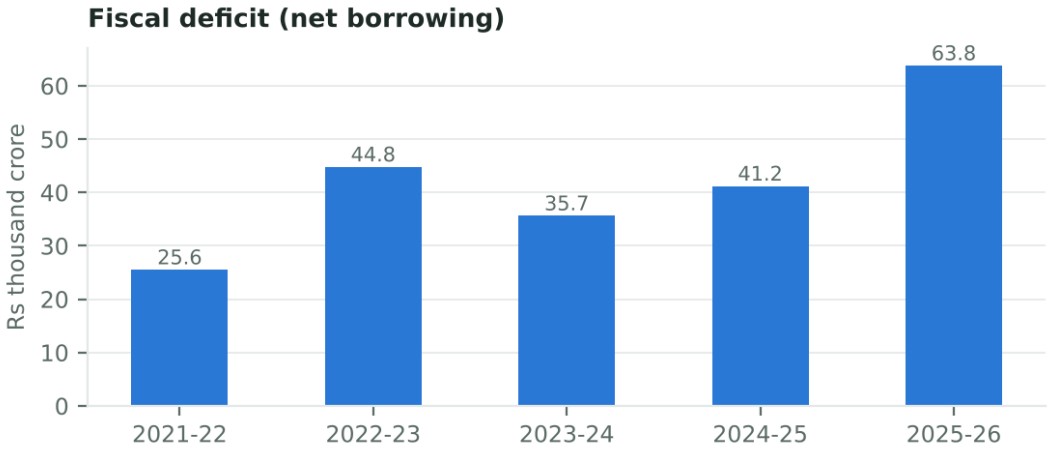

Three things stand out

- **Dependence on the Centre.** In 2025-26, the share of central taxes and grants together made up 57% of revenue receipts; the state's own taxes about 40%.
- **Committed spending is rising.** Salaries, pensions and interest took 37% of revenue receipts in 2021-22 and 47% in 2025-26. Salaries alone rose from Rs 24,983 crore to Rs 57,632 crore.
- **Borrowing jumped in 2025-26.** The fiscal deficit was Rs 63,803 crore against Rs 41,222 crore a year earlier, while capital spending was flat at Rs 36,590 crore: the extra borrowing went to the

revenue account.

Source: Monthly Key Indicators, March 2026 supplementary edition. Own taxes = tax revenue minus the share of central taxes.

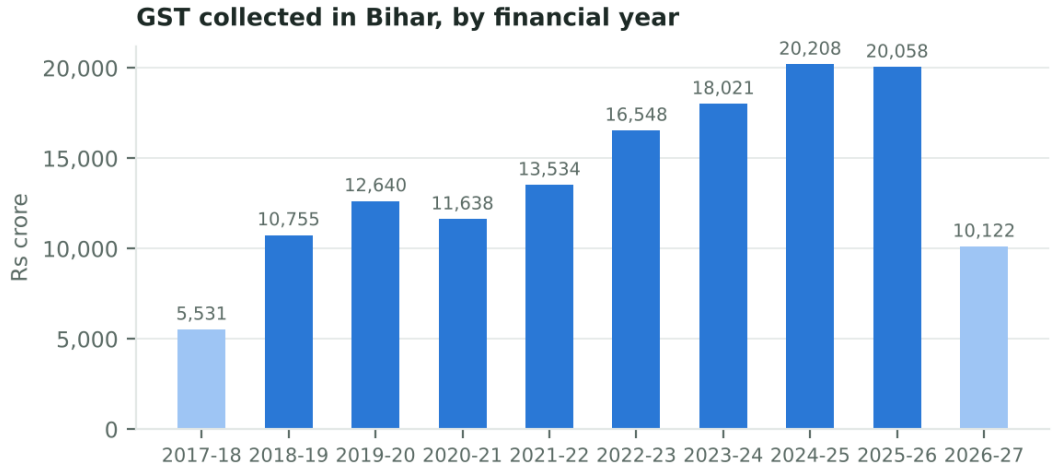

Fiscal deficit equals net borrowing and other liabilities in the Monthly Key Indicators.

Budget against actual

In 2025-26 revenue receipts reached 90% of the budget estimate and capital expenditure 87%; the fiscal deficit was 195% of the budgeted figure.

11. GST in Bihar

GST collected in Bihar rose from Rs 10,755 crore in 2018-19 (the first full year) to Rs 20,058 crore in 2025-26, about 9.3% a year. Bihar's share of GST collected across states and union territories has stayed near 1.2%, and it ranks about 19th, far below its 9.4% share of population: GST is collected largely where goods are produced and businesses are registered.

Light bars are part years: 2017-18 from July (GST began 1 July 2017); 2026-27 to September.

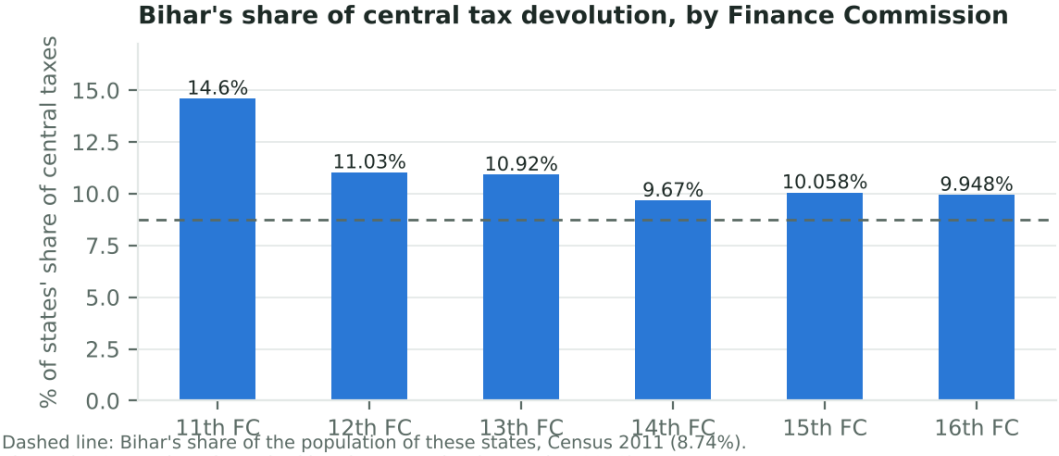

Source: GST statistics, state-wise collection workbooks (Collections-Statewise sheet, financial-year total). data/analysis/insights/gst_bihar.csv.

Financial year	Bihar (Rs crore)	Share of states/UTs	Rank	Covers
2017-18	5,531	1.03%	19 of 36	Jul 2017-Mar 2018 (GST began July 2017)
2018-19	10,755	1.23%	19 of 36	full year
2019-20	12,640	1.34%	19 of 37	full year
2020-21	11,638	1.35%	19 of 37	full year
2021-22	13,534	1.24%	19 of 37	full year
2022-23	16,548	1.25%	19 of 37	full year
2023-24	18,021	1.19%	19 of 37	full year
2024-25	20,208	1.21%	19 of 37	data up to 31st Mar 2025
2025-26	20,058	1.23%	18 of 37	data up to 31st Mar 2026
2026-27	10,122	1.16%	19 of 36	data up to 30th Sep2026

States and union territories exclude 'Other Territory' and OIDAR (online services). The 2025-26 and 2026-27 workbooks have no cess column; their totals are CGST, SGST and IGST.

12. Bihar and the Finance Commissions

The Finance Commission decides how central taxes are shared among states. Bihar's share was 10.058% under the 15th Commission and is 9.948% under the 16th, for 2026-31. Since the 12th Commission it has stayed between 9.67% and 11.03%, above Bihar's population share because the formula weights low income heavily.

Dashed line: Bihar's share of the population of these states, Census 2011 (8.74%).
The 11th FC award predates Jharkhand's separation (November 2000).

Sources: 16th FC report Table 8.4 (11th–14th FC), 15th FC report Table 6.5, 16th FC report Table 8.9.

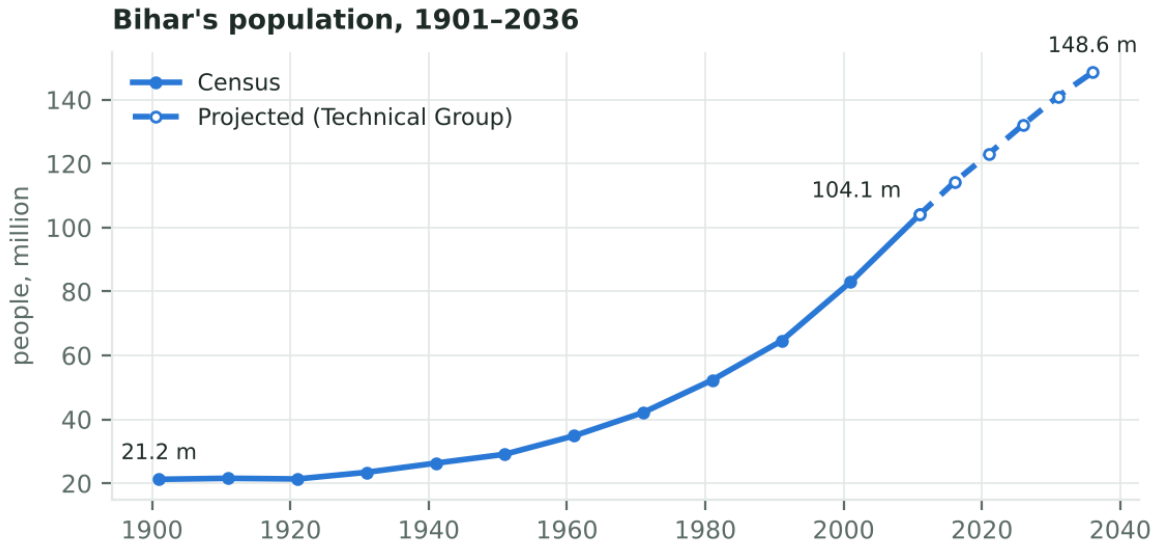

The commission's own data shows why

Measure (16th FC data)	Bihar	All states	Bihar's share
Population, Census 2011 (million)	104.1	1,178.2	8.84%
Population estimate 2023-24 (million)	127.9	1,357.3	9.42%
Area ('000 sq km)	94.2	3,054.3	3.08%
Comparable GSDP 2023-24 (Rs crore)	869,530	28,112,310	3.09%
GSDP per person 2023-24 (Rs)	68,009	207,113	32.8%

In 2023-24 Bihar had 9.42% of the population of all states but 3.09% of their combined GSDP, so its income per person was about Rs 68,009, 32.8% of the all-state average of Rs 207,113.

13. Population

Bihar's population (within its present boundaries) was 21.2 million in 1901 and barely grew for 30 years. It then grew fast: 83.0 million in 2001 and 104.1 million in 2011. The official projection reaches 148.6 million by 2036.

Sources: Census 2011 Table A-2 (1901–2011); Technical Group on Population Projections (2019), Table 21 (2016–2036, as on 1 March).

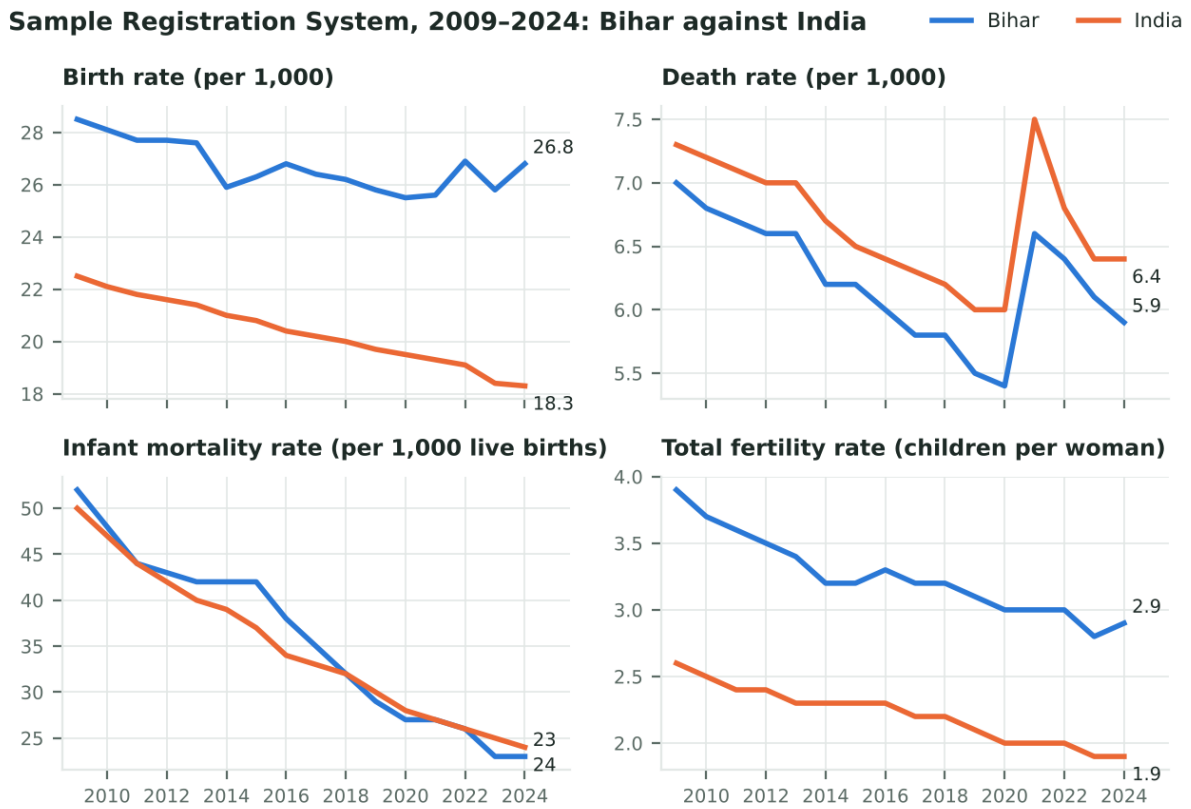

Year	Population	Kind
1901	21,243,632	Census
1911	21,567,159	Census
1921	21,358,905	Census
1931	23,438,371	Census
1941	26,302,771	Census
1951	29,085,017	Census
1961	34,840,968	Census
1971	42,126,236	Census
1981	52,302,665	Census
1991	64,530,554	Census
2001	82,998,509	Census
2011	104,099,452	Census
2016	114,176,000	Projected
2021	123,083,000	Projected
2026	132,265,000	Projected
2031	141,041,000	Projected

Year	Population	Kind
2036	148,576,000	Projected

14. Births, deaths and fertility

The Sample Registration System gives annual rates for 2009–2024. Bihar has had the highest birth rate of the larger states throughout: 26.8 per 1,000 people in 2024 against 18.3 for India. Its total fertility rate fell from 3.9 to 2.9 children per woman, still well above India's 1.9 and the replacement level of 2.1.

Infant mortality is the clear improvement: from 52 to 23 deaths per 1,000 live births, now in line with India (24). The death rate is below India's, partly because Bihar's population is young. Both rose in 2021, the year of the COVID-19 second wave.

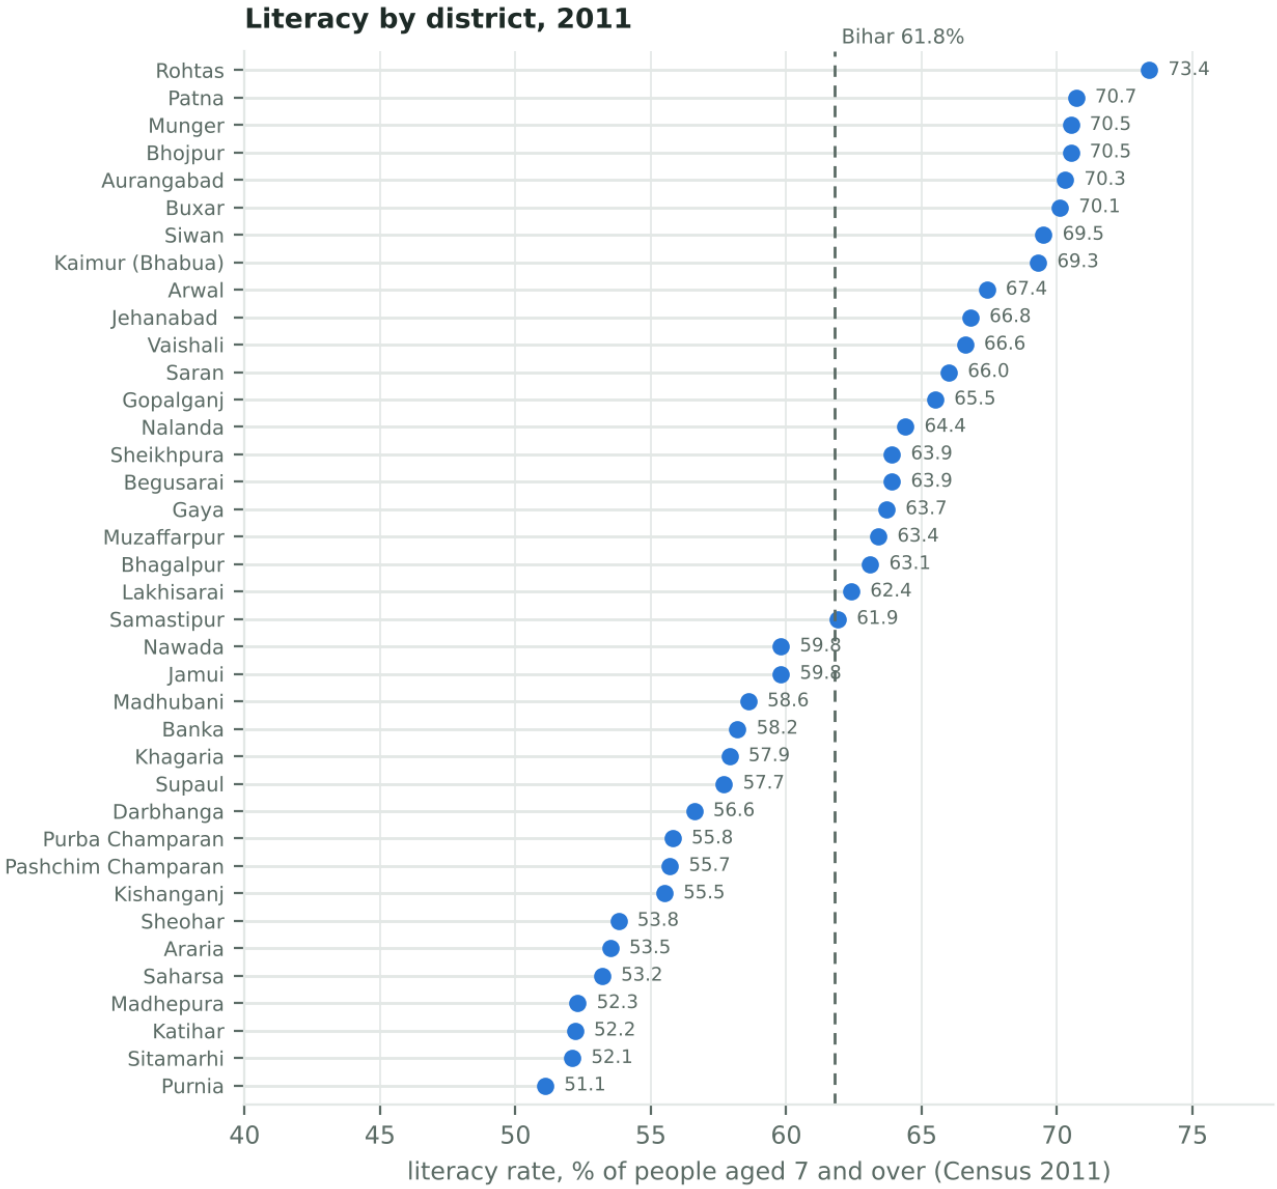

Source: SRS Statistical Reports 2014, 2019 and 2024, Tables 12–15 (annual estimates). Where the tables overlap (2014, 2019) they agree exactly.

Year	Birth rate	Death rate	Infant mortality	Fertility	India birth rate	India infant mortality
2009	28.5	7	52	3.9	22.5	50
2010	28.1	6.8	48	3.7	22.1	47
2011	27.7	6.7	44	3.6	21.8	44
2012	27.7	6.6	43	3.5	21.6	42
2013	27.6	6.6	42	3.4	21.4	40

2020	25.5	5.4	27	3	19.5	28

Year	Birth rate	Death rate	Infant mortality	Fertility	India birth rate	India infant mortality
2021	25.6	6.6	27	3	19.3	27
2022	26.9	6.4	26	3	19.1	26
2023	25.8	6.1	23	2.8	18.4	25
2024	26.8	5.9	23	2.9	18.3	24

15. Districts and villages in 2011

The 38 district abstracts of Census 2011 add up to exactly Bihar's published population, 104,099,452, and reproduce its published literacy rate (61.8%), sex ratio (918 women per 1,000 men) and child sex ratio (935). Behind those averages the districts differ widely: literacy runs from 51.1% in Purnia to 73.4% in Rohtas, and urban population from 3.5% to 43.1% (Patna).

Source: Census 2011 Primary Census Abstract, district files (DDW_PCA1001–1038). Literacy is literates as a share of people aged 7 and over.

District profile

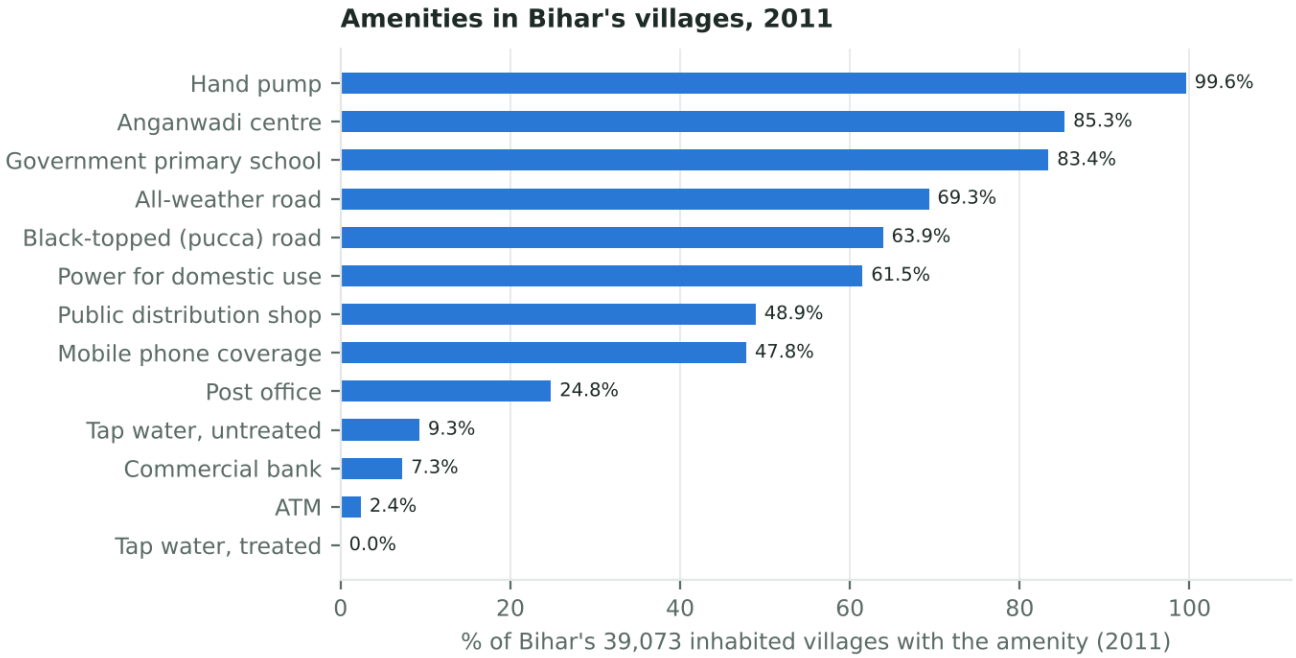

District	Population	Urban %	Sex ratio	Child sex ratio	Literacy %	Female lit. %	SC %	ST %	Workers %

Sex ratio is women per 1,000 men; child sex ratio is girls per 1,000 boys aged 0–6. Sorted by population.

Amenities in villages

The Village Directory records amenities in every village. Of Bihar's 39,073 inhabited villages in 2011, almost all had a hand pump and most had a government primary school and an anganwadi centre. Only 61.5% had power for domestic use, 47.8% had mobile coverage, 7.3% had a commercial bank, and none had treated tap water.

Source: District Census Handbooks 2011, Village Directory (DH_2011_DCHB_Village_Release_1000.xlsx); uninhabited villages excluded.

District	Villages	Power	All-weather road	Mobile	Bank	PDS shop	School

Vaishali	1,422	81.2	80.4	51.0	6.8	57.1	81.4

Percentages of inhabited villages with each amenity in the village (2011). First row: Bihar.

16. Connecting the sources

IBN's aim is to connect sources, and the first step is knowing how far they agree. The collection makes several cross-checks possible.

State accounts: three sources agree

Financial year	Monthly Key Indicators (March)	Accounts at a Glance 2024-25 (audited)	Revenue deficit, MKI	Economic Survey Table 2.7
2021-22	158,797	158,797	-422	422
2022-23	172,688	172,688	-11,288	11,288
2023-24	193,347	193,347	2,833	-2,833
2024-25	218,658	218,657	-357	–

Revenue receipts in Rs crore. The audited Accounts at a Glance matches the year-end Monthly Key Indicators to the crore for every year. The Economic Survey shows the revenue deficit with the opposite sign (deficit positive) and matches it too.

Bihar's population: one state, several numbers

Figure	Population	Source in the collection
Census 2011	104.1 million	Census Table A-2; district abstracts sum to 104,099,452
Projection for 2021 (1 March)	123.1 million	Technical Group projections, Table 21
Estimate for 2023-24	127.9 million	16th Finance Commission dataset (from MoSPI)
Projection for 2026 (1 March)	132.3 million	Technical Group projections, Table 21
Caste-based survey 2022-23	130.7 million	Task 2 catalogue; the report itself is still to be collected (BR-DM-01)

The Census is 15 years old, the projections and the Finance Commission's estimate are both built on it, and the 2022-23 caste survey counted about 2.5 crore more people than the 2023-24 estimate. Until Census 2027 is published, any per-person figure for Bihar depends on which population is used; IBN should always say which.

Other connections the data supports

- Per-person public spending and revenue by year, using the state accounts with a stated population figure.
- District literacy, urbanisation and village amenities (Census 2011) against district GDP in the Economic Survey once its tables are taken from the original pages.

- Birth rates and infant mortality (SRS) against health and education spending in the Appropriation Accounts.
- GST collections against the state's own tax revenue in the Monthly Key Indicators.

Part V. Quality, gaps and next steps

How far the data can be trusted, what is missing and what comes next

17. Data quality

Extracted copies

The CSV and text files are faithful copies of the originals, not cleaned data. Headings, units and place names are as published. Standardising them (district names, LGD codes, units) is the next stage of work.

OCR accuracy

2,446 PDF pages had no text layer: both Economic Survey editions, the SRS reports for 2015–2019 and the 6th SFC report Part 3, among others. OCR found text on 2,165 of them; the rest are blank, divider or picture-only pages.

OCR is good enough to find tables and figures, but not to quote them unchecked. In the Economic Survey's Table 2.7 (revenue deficit by state), Bihar's 2021-22 to 2023-24 values were read correctly (422, 11288, −2833), but its 2024-25 value, −1121, came out garbled. Elsewhere in the same table minus signs were dropped: Andhra Pradesh's −43487 became 43487. **Use OCR text to locate a figure, and take the figure from the original page.**

National files

GST, SRS and Finance Commission files cover all states and were kept whole; filter Bihar during cleaning. 119 census files are district Primary Census Abstract tables identified by census code rather than by name.

Problems found and fixed

Problem found	How it was handled
RBI served a bot-check page instead of 368 spreadsheets and PDFs	Every download's content is now checked. The 368 files are flagged invalid and excluded; RBI is a manual download
8 unrelated PDFs came from an over-broad CAG link pattern	Flagged invalid; the manifest now points at CAG's report pages
state.bihar.gov.in leaves an intermediate certificate out of its chain	The public Sectigo certificate is supplied in config/extra-intermediates.pem; verification stays on
The same site loops without its session cookie	Cookies are kept within a run
The Economic Survey is served only through a form	Fetched by a short script and registered with a note on how it was obtained
The census website is JavaScript-only	Files listed through the census catalogue's public API
District handbooks come as zip archives	Spreadsheets are read from inside the zip; nothing is unpacked into data/raw
Two handbook tables per district crashed the Excel reader	Their broken named-range definitions (which hold no data) are skipped
A 116 MB PDF ran out of memory during extraction	Each page is released after reading
The cloud machine restarted mid-download	collect.py --resume continued; every original verified intact

18. Lessons from collecting Bihar's data

- **Government sites fail in ordinary ways.** Expired or incomplete certificates, server errors, sites that refuse foreign connections, and bot checks blocked 11 sources. None of these is a reason to turn verification off; each has a fix that keeps the record honest.
- **JavaScript sites often have an API behind them.** The census website looks impossible to collect from, but its catalogue API gave 556 files in a repeatable way.
- **Check content, not file names.** 368 'spreadsheets' from RBI were bot-check pages. Every download is now checked.
- **Scanned PDFs are common.** 2,446 pages had no text, including the whole Economic Survey. OCR makes them searchable but not quotable.

- **Cross-check before trusting.** The state accounts, the audited summary and the Economic Survey agree, which is what makes the finance figures in Part IV reliable.

19. What remains

Everything that could be collected from a cloud machine outside India has been collected. The rest needs a person or a different connection.

1. Re-run from a machine in India

Run `python scripts/collect.py`. It retries the Bihar statistics directorate (district GDP, vital statistics, CRS returns, Statistical Handbook), the CAG audit report, and the CAG pages that returned server errors.

2. Download by hand and register

- RBI State Finances and Handbook of Statistics on Indian States (bot check).
- Bihar budget documents, FRBM disclosures and NFHS while their certificates are expired.
- CFMS, eGramSwaraj, Open Budgets India, PLFS, HCES, HMIS, Mission Antyodaya, electoral roll statistics, SECC, the Local Government Directory, DataLab and e-Statistics (login, form, CAPTCHA or on-screen reports).
- The 2022-23 caste survey report, which has no stable official link.

Add each file so it gets the same record as automatic downloads:

```
python scripts/register_manual.py --source-id BR-PF-14 --dir ~/Downloads/rbi \
    --url "https://rbi.org.in/..." --obtained-on 2026-11-20 --note "Saved from browser"
```

3. Next stage: cleaning

Build cleaned, standardised tables from data/processed: consistent district names and LGD codes, units, and Bihar rows from the national files.

20. Next steps for India By Numbers

- **Finish Task 3 for Bihar.** Run the collector from India, and download and register the manual sources.
- **Clean and standardise.** Build tidy tables from data/processed: one row per district or year, LGD codes for places, consistent units, and Bihar rows from national files.
- **Take key figures from original pages.** For scanned sources such as the Economic Survey, enter the important tables from the page images, using OCR only to find them.
- **Record what each number is.** Tag every figure as reported, derived, estimated or unavailable, as the IBN principles require.
- **Connect.** Start with the links in chapter 16: per-person finances, district profiles against spending, and health outcomes against health spending.

Appendices

Every file collected, the Census 2011 series, and a glossary

Appendix A. Every collected file (excluding Census 2011)

Sorted by source and period. Census 2011 files (540) are summarised in Appendix B; the full list is in data/analysis/FILES.md.

Appendix B. Census 2011 tables for Bihar

The 500 Census 2011 tables (BR-DM-02) grouped by series. Each was downloaded as a spreadsheet and every sheet saved as CSV. The District Census Handbooks (BR-DM-03) are separate: 38 district archives of about 60 tables each, plus the state village and town files.

Series	Contents	Tables	MB
PC11_PCA	Primary Census Abstract by district, for all, SC and ST populations	117	25.7
PCA_CDB	Primary Census Abstract by community development block, per district	39	24.1
PCA_REL	Primary Census Abstract by religion	1	8.3
PC11_A	General population tables (decadal variation, villages and towns)	6	0.9
PC11_B	Economic tables: main and marginal workers, non-workers	43	33.3
PC11_C	Social and cultural tables: religion, marital status, mother tongue	42	22.7
PC11_D	Migration tables: place of birth and last residence	19	43.5
PC11_F	Fertility tables: women by parity and children ever born	18	24.8
PC11_FH	Female-headed households	27	6.5
PC11_H	Census houses and their uses	7	6.3
PC11_HH	Households by size and composition	19	2.6
PC11_HL	Houselisting: housing condition, amenities and assets	86	66.4
PC11_SC	Scheduled caste workers by industry, age and education	16	18.9
PC11_ST	Scheduled tribe workers by industry, age and education	58	22.7
PC11_MDDS	Location codes (MDDS e-governance codes)	2	9.0
Total		500	315.7

Appendix C. Glossary

Term	Meaning
Actual (MKI)	Amount received or spent from April to the month of the report
Budget estimate (BE)	The amount in the budget passed for the year
Crore	10 million (1,00,00,000); Rs 1 lakh crore = Rs 1 trillion
Devolution	The states' share of central taxes, divided among states by the Finance Commission
Fiscal deficit	Total spending and net lending minus receipts other than borrowing; equals net borrowing
GSDP	Gross State Domestic Product, the size of a state's economy
IMR	Infant mortality rate: deaths before age one per 1,000 live births
MKI	Monthly Key Indicators, the Accountant General's monthly summary of state accounts
OCR	Optical character recognition: reading text from an image of a page
PCA	Primary Census Abstract: the core Census counts for each area
Provenance	The record of where, when and how a file was obtained
Revenue deficit	Revenue expenditure minus revenue receipts
sha256	A fingerprint of a file's exact bytes; any change gives a different value
SRS	Sample Registration System: an annual survey of births and deaths
TFR	Total fertility rate: the average number of children a woman would have
